

Durham goes Virtual

Durham Public Schools (DPS) in Durham, NC chooses the TeamWORKS Virtual hosted solution for their maintenance management solution. Their choice ensures they gain the convenience of a web solution along with the power and ease of use found in classic desktop applications. Julie Taylor of DPS says "We decided to go hosted for dependability and support". The move from TeamWORKS Classic to TeamWORKS Virtual allowed DPS to move all the users from an on site client server application to a hosted solution with no training required and no data loss. In a follow with Julie to check on quality of the solution Julie replies "three cheers for TeamWORKS!"

ABOUT TEAMWORKS

TeamWORKS is a software and solutions provider specializing in meeting the needs of Educational Facilities and Maintenance professionals. Our experience with K-12 and Higher education gives us an advantage over the competition. We have an in-depth understanding of the unique challenges faced by our clients in education systems. Put our experience and knowledge in your corner.

Created at the request of several K-12 maintenance directors, TeamWORKS was founded in July 2002 to fill a void in school's Facilities and Maintenance software and software services. Since that time, TeamWORKS has grown to serve school districts throughout the nation.
