

Technology Platforms

TeamWORKS software is delivered in three major technology platforms. Desktop, web and mobile applications are all designed to deliver the power and ease of use you require in a Maintenance Management System and can all be delivered in-house or as a hosted solution.

In addition, TeamWORKS desktop applications can be set up as standard C/S application, TeamWORKS Classic, or as a hosted Virtual application, TeamWORKS Virtual. These many different technology offerings ensure you get the technology you need delivered how you want it.

ABOUT TEAMWORKS

TeamWORKS is a software and solutions provider specializing in meeting the needs of Educational Facilities and Maintenance professionals. Our experience with K-12 and Higher education gives us an advantage over the competition. We have an in-depth understanding of the unique challenges faced by our clients in education systems. Put our experience and knowledge in your corner.

Created at the request of several K-12 maintenance directors, TeamWORKS was founded in July 2002 to fill a void in school's Facilities and Maintenance software and software services. Since that time, TeamWORKS has grown to serve school districts throughout the nation.
